Subject	CubelQ Announces Customer Risk Rating Manager™ - CRRM™

CubelQ Announces **Customer Risk Rating Manager™**.

CubelQ's Customer Risk Rating Manager – CRR Manager™ is a Web Based **autonomous** software application that has been designed and developed with the purpose to calculate customers' AML risk rating and to categorize customers to the corresponding risk category.

CRR Manager™ integrates with existing AML legacy systems in order to exchange customers' data, define Risk Models and calculate Customer Risk. It also publishes a Web Service which third party application consume to receive ad-hoc Customer Risk Rating.

CRR Manager™ Features:

- Easy Risk Models definition.
- Multiple Risk Models per installation.
- Statistical Risk Models support.
- Easy and flexible operating configuration.
- Accommodates any risk model.
- Accommodates any type of business.
- Employs 45+ risk items, additional risk items can be added.
- Preconfigured with individuals and 12+ business types, additional customer types can be added.
- When working in parallel with PCS™ it can encapsulate EDD Reporter Risk Model.
- Modern and intuit user interface.
- On-line, ad-hoc Customer Risk Rating by consuming published web services.
